New-Nutri® Seaweed Extract 18

OMRI
LISTED

For all types of plants

New-Nutri Seaweed Extract 18 is made from *Ascophyllum nodosum*, a seaweed that can reach up to 500 meters. Nutrients include magnesium, potassium, zinc, iron, and nitrogen, which are beneficial to plants.

PRODUCTION SPECIFICATION

Appearance	Black Flakes
Alginate Acid	18%
NPK	1-1-18
Micro-Elements	1%
Organic Matter	45%
Water-solubility	100%
PH	8-10

DOSAGE

Foliar Spray

➤ Dilute with 2000-3000 times water, spraying on leaves without burning sun, and raining at intervals of 10-15 days during the growing season

Seed Treatment

➤ 0.5-1.0kg for 1 ton seeds

Root Dipping

➤ Diluted with 2000-3000 times water

(Suggested data is solely for guidance purposes. We encourage users to conduct their own testing best suited for their crop under their conditions and environments.)

BENEFIT

- Better root systems
- Provides greater resistance to stress
- Inhibiting deleterious bacilli in soil
- Increasing germination rate of seeds
- Degrading pesticide residue
- Improved soil structure and water holding capacity
