

New-Nutri®

Potassium Humate K 10

New-Nutri Potassium Humate K 10 is a soil stimulant and a transportation vehicle for carrying nutrients into plants. It is derived from a super-active leonardite source.

New-Nutri Potassium Humate K 10 can be used as foliar organic fertilizer, soil conditioner, and plant nutrient enhancer. It has various appearances, such as flake, powder, granule, crystal, and so on.

The packaging can be customized accordingly.

PRODUCTION SPECIFICATION

Appearance	Black Flakes
Humic Acid	65%
Potassium Oxide (K ₂ O)	10%
Water-solubility	100%
PH	9-11

DOSAGE

Drip Irrigation

- 3-6kg/ha during seedling period for vegetables.
- 7.5-12kg/ha during growing period at intervals of 7-15 days.
- 30-60kg/ha for fruit trees. 3-4.5kg/ha for field crops.

Spray

- To dilute with 1000-1200 times water.

Fertilizer Additive

- 3-4kg/Mt mixed with urea. 4-8kg/Mt mixed with compound fertilizer.

(Suggested data is solely for guidance purposes. We encourage users to conduct their own testing best suited for their crop under their conditions and environments.)

BENIFIT

- Natural chelating and complexing agent to help magnify nutrient absorption
- Increased chlorophyll synthesis
- Stimulates beneficial microbial activity
- Maintain the soil moisture
- Promotes crops resistance to drought and disease
- Increases root vitality
- Improves efficacy of Herbicide
- Improves the efficiency of fertilizer
- Improves crop respiration and photosynthesis
- Improves the yield of crops
- Regulates the release of nutrients
